Date: 3rd May, 2017

Dear Sir,

REVALIDATION OF APPROVAL FOR THE USE OF OIL SPILL EATER II (OSE II) FOR OPERATIONS IN THE NIGERIAN OIL AND GAS INDUSTRY

We acknowledge receipt of your letter dated 20th December 2016 in respect of your request for revalidation of approval of OSE II, whose approval was revalidated in February 2013 and wish to convey our comments arising therefrom.

2. Following the review of your submission including the Material Safety Data Sheet of the product and upon a confirmation and attestation from the original product manufacturer that the composition of the product has not changed and has remained the same since its inception, we are pleased to revalidate the approval of **OSE II** for use in the Nigerian Oil and Gas Industry as a **Bioremediation Agent**.

3. This approval is for a period of three (3) years in the first instance from the date of this letter and is subject to periodic review by the Department as deemed necessary.

4. The use of **OSE II** shall be governed by the provision of section 25 of the Petroleum (Drilling and Production) Regulations, 1969 as well as Environmental Guidelines and Standards for the Petroleum Industry in Nigeria (EGASPIN 2002) which were both issued pursuant to section 9(1)(b)(iii) of Petroleum Act, 1969.

5. Furthermore, any change in the composition or reformulation of this product that could wholly or partly alter the data submitted should be promptly communicated to the Director of Petroleum Resources for the purpose of re-certification, as such changes automatically renders this approval invalid.

6. Finally, you are to note that this approval notwithstanding, the user of the product shall seek the approval of the DPR for the specific use under specified terms and condition; and shall remain fully responsible for any damage done to the local environment on account of the use of the product.

Yours Faithfully,

A handwritten signature in blue ink, appearing to read 'Musa. Zagi mei, spe'.
